

A Modern Sleep Lab, In Your Clinic

The first sleep health assessment
designed for longevity and concierge medicine

Built like a CGM— But for your sleep

Overview

Undiagnosed sleep issues significantly increase risk of chronic disease.

With Empower Sleep, you can integrate end-to-end sleep care into your clinic within minutes.

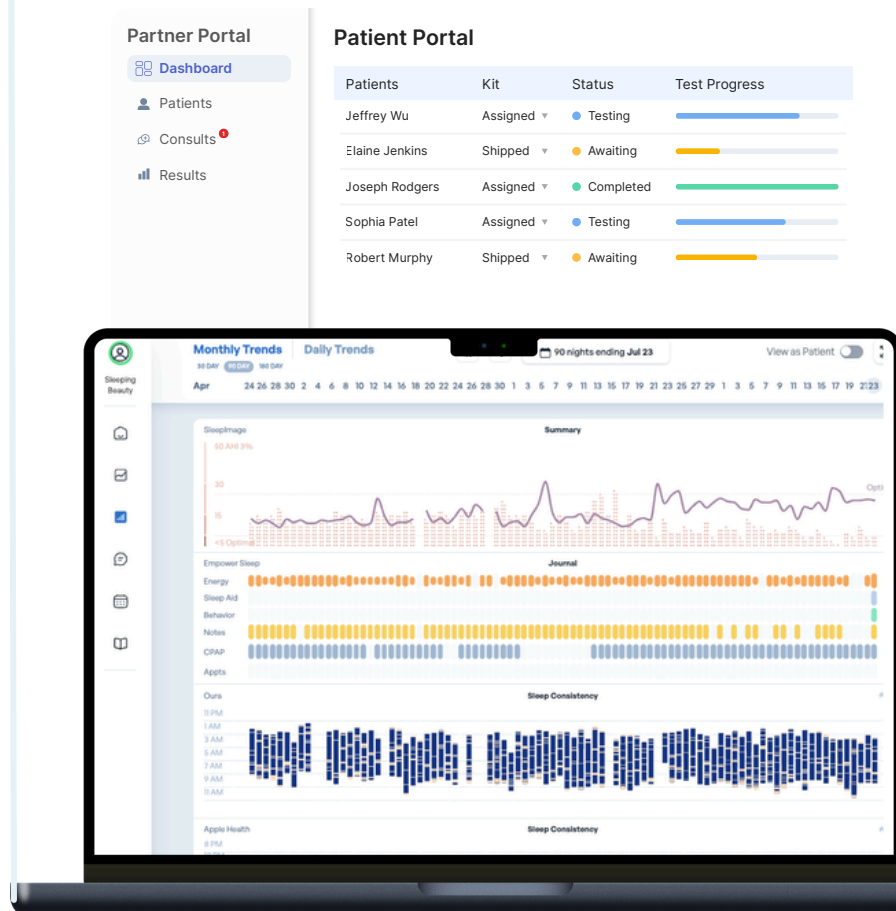

Your patients will get a diagnostic home sleep test shipped directly to their door. They can use it for 30 nights and get in-app insights to optimize their sleep protocol. As the practitioner, you will have access to review their data, get sleep test interpretations, and schedule peer-to-peer consults with sleep experts.

For Patients

For Practitioners

VO₂ Max, CGMs, Cleerly, DEXA, and comprehensive blood panels are routine in your longevity workup. Sleep health assessments should be, too.

A single-night sleep test gives you a snapshot. Empower Sleep gives you the full picture.

- ✓ We ship your patient a medical-grade, in-home sleep test that they can use for 30 nights
- ✓ Get insights on your patient's sleep biomarkers with interpreted sleep tests to develop personalized protocols
- ✓ Schedule peer-to-peer consultations with sleep physicians and coaches for expert guidance
- ✓ Get a co-branded landing page to ensure patients stay within your ecosystem

Trusted by the world's top longevity clinics

"Working with Empower Sleep provides my patients with treatment using cutting-edge technology."

empower sleep vs Traditional Sleep Labs

Longitudinal Sleep Testing (Continuous)

Single-Night Sleep Testing (Snapshot)

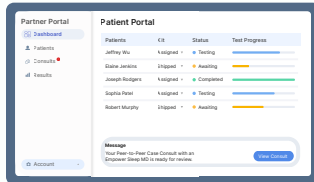

Who should get a sleep health assessment?

**Every patient should have a sleep baseline—
just like labs and imaging**

Empower Sleep integrates into your workflow, seamlessly

STEP 1

We'll create a custom landing page

We create a custom landing page for your clinic, which you can share directly with patients.

STEP 2

We ship the diagnostic home sleep test

After the patient signs up, we ship them a home sleep test with setup instructions.

STEP 3 (Optional)

Collaborate with us on a care plan

After 5 nights of testing, you can collaborate with an Empower Sleep doctor to develop a personalized care plan.

STEP 4

Develop a personalized sleep protocol

Review results with your patient and establish a sleep optimization protocol.

STEP 5

Optimize your patient's sleep protocol

Refine the sleep protocol together, based on insights and progress over time. If your patient needs guidance from sleep experts, you can refer them to us for end-to-end care.

Meet our dedicated care team

Real experts. Real sleep science.

Empower Sleep is led by a multidisciplinary team of board-certified sleep physicians, sleep coaches, and care coordinators who are obsessed with outcomes. We combine clinical expertise with cutting-edge technology to deliver deeply personalized, evidence-based care. Whether it's sleep apnea, insomnia, restless legs, or circadian rhythm disorders, your patient is supported by experts who live and breathe sleep medicine.

Patients feel the difference

"I was referred by my concierge doctor. Empower Sleep's level of care exceeded even my highest expectations. It's like having a sleep team on call."

— Sarah V., 47, Concierge Medicine Patient

"I had been snoring for years and felt exhausted. Turns out I had severe sleep apnea. Within weeks of starting Empower Sleep, I had more energy, better focus, and finally stopped relying on coffee to survive the day. They dialed in my CPAP using tons of data. This is the future of healthcare."

— Jason L., 42, Tech Executive

"Between work and kids, I thought exhaustion was just normal. Empower Sleep uncovered my insomnia and helped me get back on track with a plan tailored to my life. I finally feel like myself again."

— Cynthia K., 36, Mom of Two
